Rocky Mountains

Update Delete

Hosted by Vinit Girkar

Dates: 27th September 2021 to 1st October 2021

Monday : 9:00am

Trip starts from : Charlotte International Airport

Details

Rocky Mountain is one of the nation's highest national parks. With elevations from 7,860 feet to 14,259 feet, Rocky Mountain makes you feel like you are on top of the world. Within the park's boundaries are 77 mountain peaks over 12,000 feet high and the Continental Divide.

**1. Explanation of additional features, if any.**

- I have not added any additional features. I kept the design of the page as mentioned in the instructions.

**2. Explanation of status, stopping point, and issues if incomplete.**

- The prototype is completely developed. There is no stopping point and didn't face any issue.

**3. Discuss the easy and challenging parts of the assignment. How did you overcome all or some of the challenges?**

- The tasks were easy to complete but the only challenging part was the alignment of elements. I overcame them by applying different css properties in the elements and searching the possible solution on the internet, achieving the final proper alignment at the end.
